

Pathway 1. ANZKX Registration

>>>	IDENTIFICATION OF DONOR +/- RECIPIENT		REGISTRATION		MAINTENANCE IN PROGRAM	
Transplant Unit	Identification of potential pair OR Altruistic donor	Donor and recipient meet the ANZKX enrolment criteria OR discuss with ANZKX medical team	Create a KPD enrolment for the donor and recipient in OrganMatch via the transplant portal	Complete Enrolment including medical information in OrganMatch and send for authorisation	Update cancer screening/virology as per program requirements and upload reports to OrganMatch	Update changes in enrolment status and willing to accept status in OrganMatch
	Provide ANZKX information and consents to patients		Email Ministerial Approval forms to the ANZKX Program Coordinator	Send or transfer donor CTA imaging to the ANZKX Program Coordinator		
State Tissue Typing Laboratories	Identification of potential pair for KPD Recommend ANZKX program if appropriate on Living Donor crossmatch report		Receive Enrolment of pairs from Transplant Unit via OrganMatch Complete enrolment in OrganMatch under KPD pathway	Fulfil any HLA typing and antibody testing requirements	Perform regular Luminex screening and request samples if required	Maintain willing to Accept Status in OM (i.e. ABOi or Hep BcAb +) as directed by the Transplant Unit Maintain matching status in OM (i.e. Active or On Hold) as directed by the Transplant Unit
ANZKX Tissue Typing Coordinator	Manage enquiries from units or tissue typing laboratories regarding matching options for pairs considering entry into the ANZKX program		Meet with clinical unit and ANZKX Director to discuss optimising matching opportunities	Review data for pairs in OrganMatch to ensure that it's complete and accurate and that the pairs appear in the Match ready matrix	Review match criteria for specific recipients with clinical units as required	
ANZKX Program Coordinator			Review and authorise Enrolments of pairs in OrganMatch	De-identify relevant donor reports and upload to OrganMatch	Send quarterly status reports to Transplant Units to confirm enrolled pairs status and update screening/virology as required	
			Submit ministerial approval form to State Ministers including briefing note	Upload donor images to RMH and submit a request for CTA independent review for extra renal pathology		
ANZKX Program Director & Deputy Director	Manage unit queries regarding donor criteria and feedback regarding potential enrolment		Feedback to units regarding secondary CTA reviews and Medical data requiring specific medical follow up or need for pre offer	Communicate with units regarding goals of entering the ANZKX Program and specific matching requirements for enrolled pairs	Feedback to units regarding pairs that are challenging to match and options to improve match probability
