PURPOSE

A notification is generated by OrganMatch to alert the user that there is an update on a person record which needs actioning. The notification menu lists all the notifications relevant to the user's access.

1. INTRODUCTION TO NOTIFICATIONS

- The notification menu lists all the notifications relevant to the user's access.
- A notification is not directed to you as a user, it is a notification for all users in your transplant unit, with the prescribed user level.
- The notification table lists the name of the person, when it was updated and by who, which portal it was created in, the user role it was sent to, the OM lab, the notification and any comments.
- Users can filter the table by selecting TWL Status or Notification.
- Any notification that hasn't been actioned will remain in the Current tab.
- When all notifications on a person profile are actioned the notifications screen will close upon archiving the last notification.

See **Appendix 1: Transplantation Portal Notification Generation** for list of current notifications in OrganMatch.

2. ACCESSING NOTIFICATIONS

2.1 NOTIFICATIONS IN NAVIGATION PANE

1. Click on the **Notifications** icon.

*	Search	
•	Pool Management	~
	Waiting List	
	Urgent TWL Recipients	
	Transplanted Recipients	
•	Donor Dashboard	
-	Registration	
•	KPD Program	>
	Notifications 6	83

OM-011 VERSION: 9 EFFECTIVE DATE: 12/11/2024

2. This will take you into the Notifications page.

3. The filters can be used to identify a specific group of notifications to action. For example, selecting the **Organ Program** Kidney and **Transplant Pathway** TWL filters will display notifications from recipients with a Kidney TWL enrolment.

gan Program		Transplant Pathway	
Kidnev	~	TWL	\sim

4. If the notification is for a new note created, hovering over the notification will display the contents of the current note created by the user.

Last Updated By ↑↓	Notification ↑↓	Comment 1
Tim Emery	New note is available	-
Eleni Tsiopelas	Re-Entry Tissue Typing workup for the Heart	-
Wathsala Munasinghe	Transplant Waiting List is	-
Hannah Sullivan	placed on hold in	-
Eleni Tsiopelas	OrganMatch awaiting activation.	-

5. Click on the person notification.

6. This will take you directly into the person's **Match profile**. If the notification is for a new note created, the **Notes & attachments** tab will be expanded to display the note.

Note: When all notifications on a person profile are actioned the notifications screen will close upon archiving the last notification.

APPENDIX 1: TRANSPLANTATION PORTAL NOTIFICATION GENERATION

LABORATORY PORTAL TO TRANSPLANTATION PORTAL

The following notifications are generated from actions in the Laboratory portal to the users in the Transplantation Portal.

Note: ***Clinical Report**. Whenever a clinical report is authorised, a notification will be sent to the Transplantation Portal regardless of whether there is an active notification existing in the system.

Note: **Automatic archiving of the notification will occur when SAG results are imported in the system.

*** Automatic archiving of the notification will occur when the patient is relisted as urgent.

Notification	То
