The Donor Dashboard displays deceased donor records that are matched against recipients from the user's hospital. This dashboard is updated in real time and users can access match events for their recipients as soon as they are published in the laboratory portal.

VIEW RECIPIENTS MATCHED WITH A DONOR

Click **Donor Dashboard** on the navigation pane.

A list of Deceased Organ Donors matched against recipients from the user's hospital is displayed.

Note: All Organ Donors have name withheld.

Click on a donor row.

This displays the list of recipients that have published match events against that donor.

Filters can be selected to narrow the list of recipients, including a multi-select option for Organ Program.

When filtering using the age filters the recipients matched on the Kidney National Algorithm will not be filtered. For examples if the user populates the **Age (Years) From** filter with 1 and the **Age (Years) To** filter with 50, any kidney recipients matched on the National Algorithm that are above 50 years old will still display.

| Transmission Risk -Infectious disease transmission risk | Select when an organ is declined due to the risk of donor transmission of an infectious disease. |
| Transmission Risk -Other | Select if an organ is declined for a reason described as no suitable recipient with a specific reason other than any of the pre-populated selections. |
| Logistics - Cost of retrieval | Select when the organ offer is declined when the cost of providing a retrieval team and/or organ transportation from donor hospital to the transplant unit is deemed excessive. |
| Logistics - Covid 19 | Select when the organ offer is declined due to logistical issues with Covid 19 restrictions. |
| Logistics - Extended cold ischaemic time | Select when an organ is declined specifically due to the calculated/estimated cold ischaemic time the organ will incur. |
| Logistics - Extended organ evaluation unavailable | Select when an organ offer is declined due to the inability to facilitate requested additional investigation/s to assess organ suitability, resulting in the transplant unit being unable to deem an organ medically suitable for transplant. |
| Logistics - Extended response time to organ offer | Select if the transplant unit has failed to provide a response to an organ offer within the allowed timeframes. |

| Reason For Decline | Scenario |
|--|---|
