

RECORD ORGAN DONATION AND TRANSPLANTATION OUTCOMES IN 2016

Australian Government
Organ and Tissue Authority

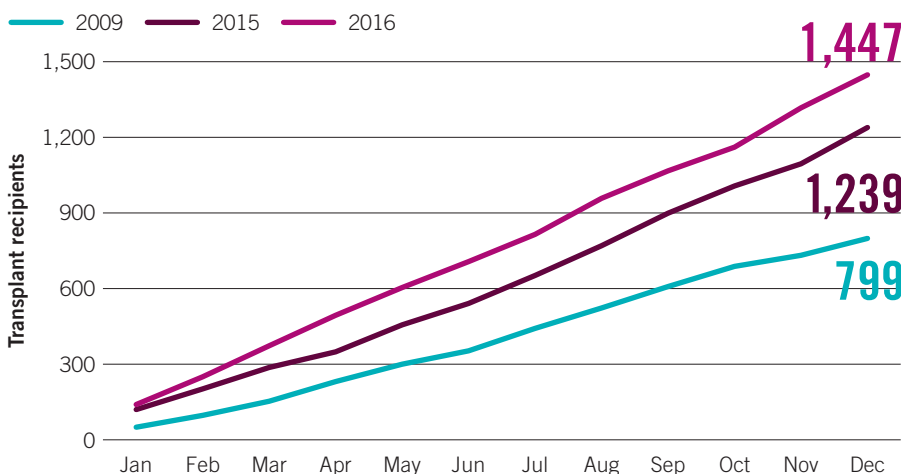

In **2016**, a record **1,447 Australians** received a life-saving transplant through the **generosity of 503 deceased organ donors and their families** who agreed to donation at the time of their loved one's death.

This represents a **16% increase** in the number of deceased donors over 2015, and **17% increase** in the number of lives saved after receiving a transplant.

We thank and acknowledge the generous Australians and their families who have saved and transformed the lives of transplant recipients. We also acknowledge the dedication and commitment of our donation and transplantation specialists.

Organ transplant recipients

Transplantation rate

60.0 TRPMP
transplant recipients per million population

Donation rate

20.8 DPMP
donors per million population

Since the start of the national reform program in 2009
